Tell me about runtime release note 10.3
test_catalog-dbdemos_rag_chatbot-basic_rag_demo_1
10.3 is not a supported Databricks Runtime version, and I couldn't find specific release notes for Databricks Runtime 10.3 in the provided context. However, I can tell you that Databricks Runtime 10.3 is listed as unsupported, and for more information about maintenance updates on supported Databricks Runtime versions, you can refer to the Databricks Runtime maintenance updates page.

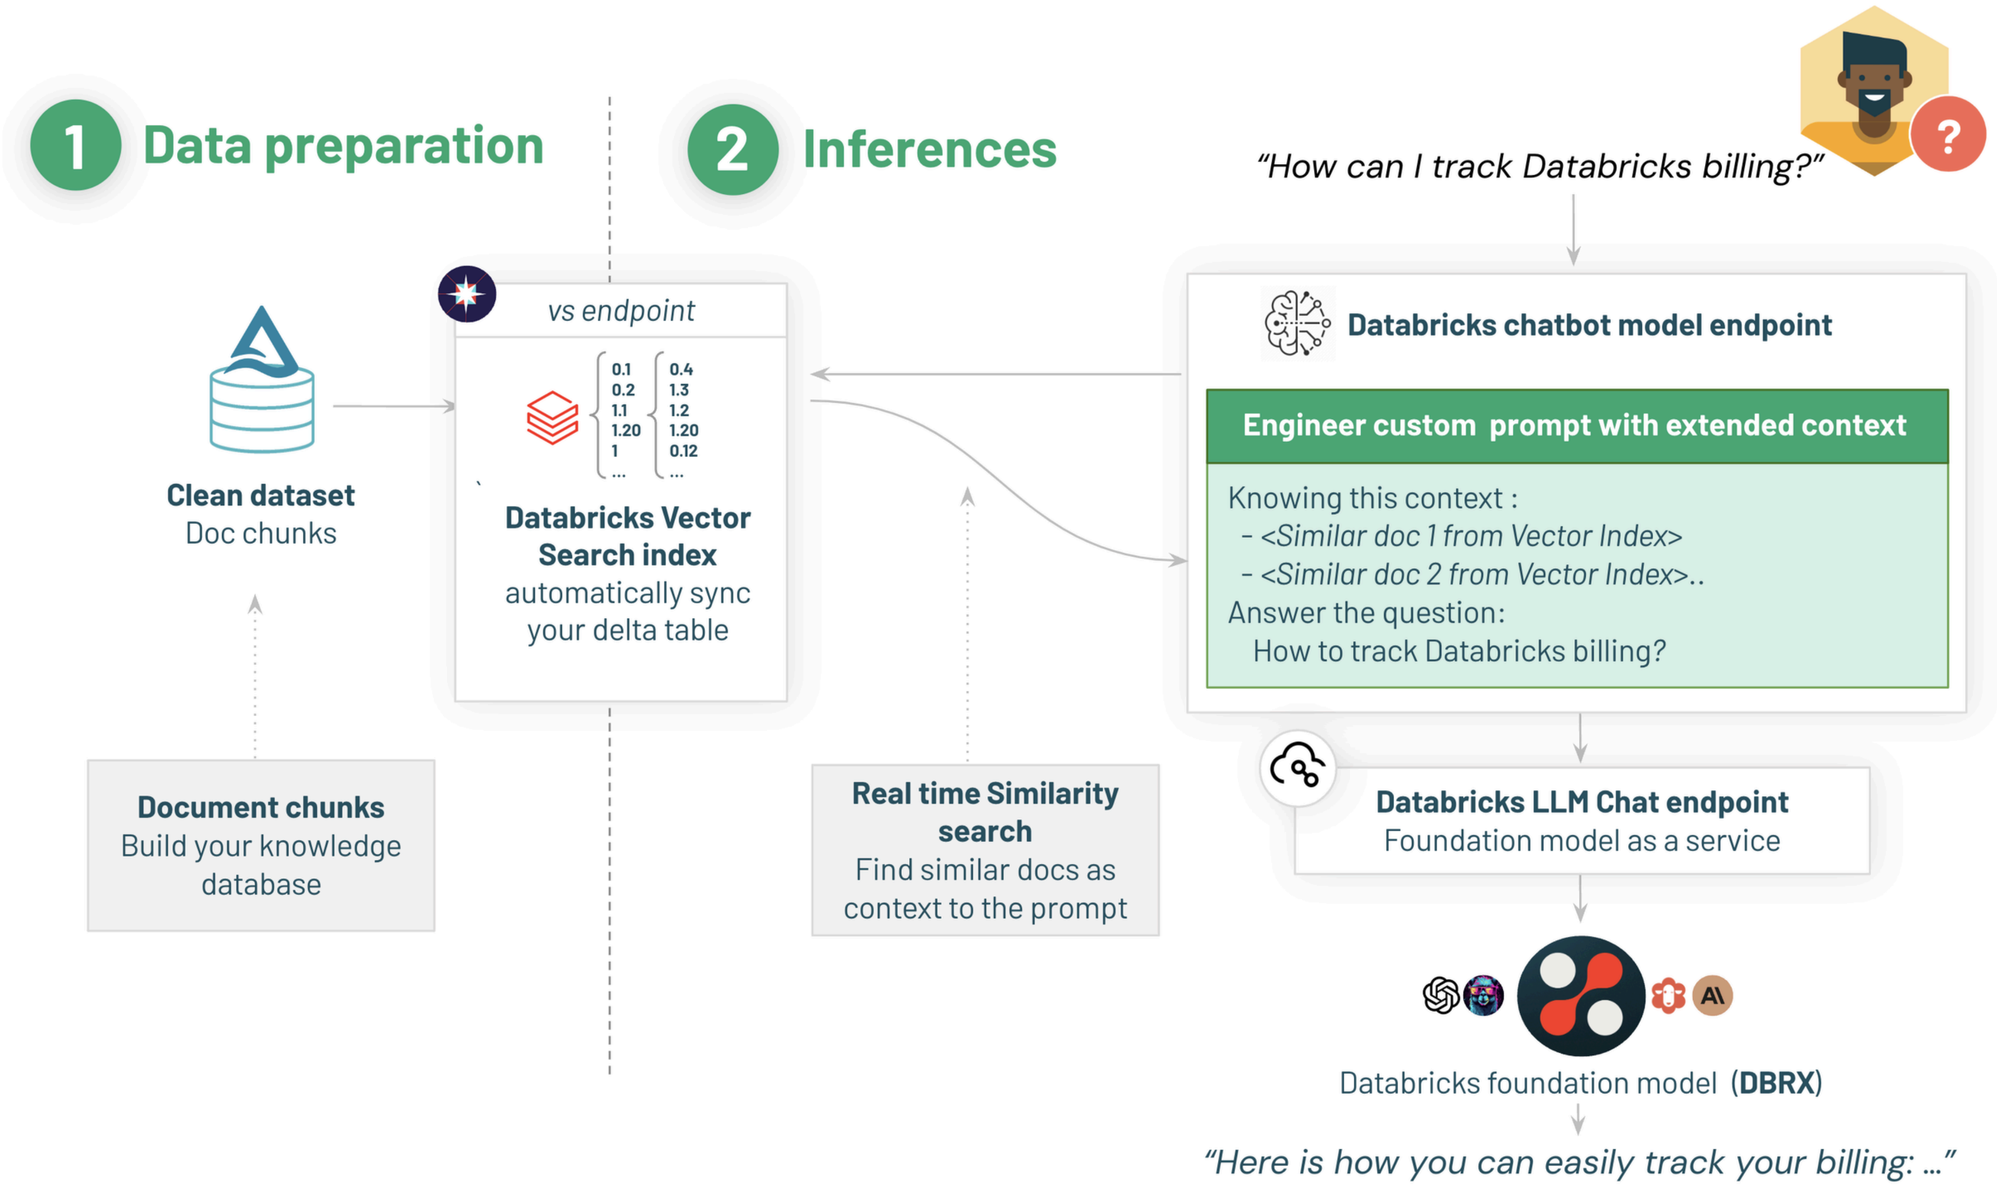
Ask your question



1 Data preparation
2 Inferences
"How can I track Databricks billing?"
vs endpoint
0.1 0.2 1.1 1.20 1 ...
0.4 1.3 1.2 1.20 0.12 ...
Clean dataset
Doc chunks
Databricks Vector Search index
automatically sync your delta table
Databricks chatbot model endpoint
Engineer custom prompt with extended context
Knowing this context :
- <Similar doc 1 from Vector Index>
- <Similar doc 2 from Vector Index>..
Answer the question:
How to track Databricks billing?
Document chunks
Build your knowledge database
Real time Similarity search
Find similar docs as context to the prompt
Databricks LLM Chat endpoint
Foundation model as a service
Databricks foundation model (DBRX)
"Here is how you can easily track your billing: ..."

Prerequisite

- Premium Pricing Tier
  - Unity Catalog
  - Metastore
  - MLflow Models
  - MLflow Serving
- GPU Compute Quota

Demo Library

Bite-size overviews. Interactive product tours. Hands-on tutorials. Explore all demos.
